LISTING OF CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Previously Presented) A computer method for editing a form, comprising:

displaying a hyperlink for an element in the form, to indicate to a user that a control is available for the element, said hyperlink including a reference to a Universal Resource Locator (URL), said hyperlink providing one of the group consisting of a link from the form to another location, and a link from the form to another file;

upon a selection of the hyperlink by the user, presenting the control for user interaction; and

upon completion of user interaction with the control, replacing the element with a new element responsive to user action.

- 2. (Original) The method of claim 1, wherein the form is a database query.
- 3. (Original) The method of claim 1, wherein the form is a spreadsheet.
- 4. (Original) The method of claim 1, wherein the element is part of a calculation.
- 5. (Original) The method of claim 1, wherein the element is part of a formula.
- 6. (Original) The method of claim 1, wherein the control is a list of choices.
- 7. (Original) The method of claim 6, wherein the list of choices is a pull-down menu.
- 8. (Original) The method of claim 1, wherein the control is a dialog box.
- 9. (Original) The method of claim 1, wherein the control is a text entry field.

Attorney Docket No.: OID06-36(07601)

10. (Original) The method of claim 1, further comprising:

upon completion of user interaction with the control, replacing the element with a new element responsive to user action, wherein the control is selected from a group of controls consisting of a list, a dialog box and a text entry field.

11. (Previously Presented) A computer system for editing a form, comprising:

a user interface for displaying information to a user and for accepting input from the user;

a hyperlink displayed on the user interface for an element in the form, to indicate to the user that a control is available for the element, said hyperlink including a reference to a Universal Resource Locator (URL), said hyperlink providing one of the group consisting of a link from the form to another location, and a link from the form to another file;

upon a selection of the hyperlink by the user, the control displayed on the user interface for user interaction; and

upon completion of user interaction with the control, a new element responsive to user action replacing the element.

- 12. (Original) The computer system of claim 11, wherein the control is selected from a group of controls consisting of a list, a dialog box and a text entry field.
- 13. (Previously Presented) A computer program product for editing a form, the computer program product comprising a computer usable medium having computer readable code thereon, including program code which:

displays a hyperlink for an element in the form, to indicate to a user that a control is available for the element, said hyperlink including a reference to a Universal Resource Locator (URL), said hyperlink providing one of the group consisting of a link from the form to another location, and a link from the form to another file;

upon a selection of the hyperlink by the user, presents the control for user

interaction; and

upon completion of user interaction with the control, replaces the element with a new element responsive to user action.

- 14. (Canceled)
- 15. (Previously Presented) The computer system of claim 11, wherein the form is a database query.
- 16. (Previously Presented) The computer of claim 11, wherein the form is a spreadsheet.
- 17. (Previously Presented) The computer of claim 11, wherein the element is part of a calculation.
- 18 (Previously Presented) The computer of claim 11, wherein the element is part of a formula.
- 19. (Previously Presented) The computer of claim 11, wherein the control is a list of choices.
- 20. (Previously Presented) The computer of claim 19, wherein the list of choices is a pull-down menu.
- 21. (Previously Presented) The computer of claim 11, wherein the control is a dialog box.
- 22. (Previously Presented) The computer of claim 11, wherein the control is a text entry field.

Attorney Docket No.: OID06-36(07601)

- 23. (Previously Presented) The computer program product of claim 13, wherein the form is a database query.
- 24. (Previously Presented) The computer program product of claim 13, wherein the form is a spreadsheet.
- 25. (Previously Presented) The computer program product of claim 13, wherein the element is part of a calculation.
- 26. (Previously Presented) The computer program product of claim 13, wherein the element is part of a formula.
- 27. (Previously Presented) The computer program product of claim 13, wherein the control is a list of choices.
- 28. (Previously Presented) The computer program product of claim 27, wherein the list of choices is a pull-down menu.
- 29. (Previously Presented) The computer program product of claim 13, wherein the control is a dialog box.
- 30. (Previously Presented) The computer program product of claim 13, wherein the control is a text entry field.
- 31. (Previously Presented) The computer program product of claim 13, further comprising program code which:

upon completion of user interaction with the control, replaces the element with a new element responsive to user action, wherein the control is selected from a group of controls consisting of a list, a dialog box and a text entry field.

Attorney Docket No.: OID06-36(07601)

32. - 40. (Canceled)

41. (Previously Presented) A computer system for editing a form, comprising:

means for displaying a hyperlink for an element in the form, to indicate to a user that a control is available for the element, said hyperlink including a reference to a Universal Resource Locator (URL), said hyperlink providing one of the group consisting of a link from the form to another location, and a link from the form to another file;

means for presenting the control for user interaction in response to a selection of the hyperlink by the user; and

means for replacing the element with a new element responsive to user action in response to completion of user interaction with the control.

- 42. (Previously Presented) The computer system of claim 41, wherein the form is a database query.
- 43. (Previously Presented) The computer system of claim 41, wherein the form is a spreadsheet.

(Previously Presented) The computer system of claim 41, wherein the element is part of a calculation.

- 45. (Previously Presented) The computer system of claim 41, wherein the element is part of a formula.
- 46. (Previously Presented) The computer system of claim 41, wherein the control is a list of choices.
- 47. (Previously Presented) The computer system of claim 46, wherein the list of choices is a pull-down menu.

Attorney Docket No.: OID06-36(07601)

- 48. (Previously Presented) The computer system of claim 41, wherein the control is a dialog box.
- 49. (Previously Presented) The computer system of claim 41, wherein the control is a text entry field.
- 50. (Previously Presented) The computer system of claim 41, further comprising:
 means for replacing the element with a new element responsive to user action in
 response to completion of user interaction with the control, wherein the control is
 selected from a group of controls consisting of a list, a dialog box and a text entry field.
